MICROLUX (SI3_2-1)

- **LED TrueWhite™ technology** produces a clean white light, resembling natural daylight and creating a safe working environment.
- **70% less energy than tungsten and more than 50 times longer life** means you save maintenance costs and vehicle downtime.
- **Low profile design (15mm)** and contoured shape designed for surface mounting without causing any obstruction. Installation is quick and easy.
- **IP67 rated** allowing for pressure washing and challenging environments such as refrigerated vehicles.
- The Microlux excels in a van environment due to both performance and price, but is also effective in larger vehicles depending on the light performance requirements.
